

FrontDesk AI

The AI receptionist for local business

Never miss another call.

Every missed call is a customer calling your competitor. Your AI receptionist answers on the first ring, books the job, and captures the lead — 24/7, in English and Spanish.

● Answers 24/7

Nights, weekends, lunch rushes — picked up on the first ring.

● Books on the call

Checks your hours and puts the appointment straight on your calendar.

● Never loses a lead

Name, number, and reason captured — texted to you the moment it happens.

● Gets smarter weekly

Learns from its own calls; you approve every change before it goes live.

HOW IT WORKS

1 Set up in minutes

We draft your AI from your website — services, hours, FAQs.

2 It answers every call

Greets, answers, books, and takes messages around the clock.

3 You see everything

Recordings, transcripts, leads, and bookings in one dashboard.
